In partnership, the Province of Manitoba and The City of Winnipeg announced a new three-year program that will provide up to \$20 million to stimulate further downtown residential development. The grant program is designed to provide market affordable urban residential options. The grant program, officially known as the Downtown Residential Development Grant Program, will provide eligible developers with financial assistance for projects to create a variety of urban housing options targeting a wide range of income levels. The Downtown Residential Development Grant can be for new construction or conversion of existing buildings into new residential units.
